RESURFABLE PRODUCTS:

[EAC](#)

DUROMAR EAC is a brush able and versatile maintenance material, which has excellent resistance to acids and caustics as well as having excellent abrasion resistance. It is primarily used to resurface any component requiring both abrasion and chemical resistance such as tanks, heat exchangers, valve or pump internals.

---

[EAC-FE](#)

DUROMAR EAC-FE is a brush able more resilient version of EAC used to enhance fluid flow, resist cavitations, or anywhere requiring more impact resistance in a thin film product.

---

[EXP](#)

DUROMAR EXP is a higher chemical and temperature resistant version of the EAC used in the most aggressive of chemical environments.

---

[GMC](#)

DUROMAR GMC is an excellent all around epoxy maintenance paint. It is used primarily on small projects where resistance to environmental pollutants spills or leaks are required. Typical applications are on exterior pump casings, fans, valves or vessels.
